

ORIENTATION CUM GUIDANCE AND COUNSELLING SESSION FOR B.SC. STUDENTS

A career counselling session was organized in the department of chemistry for the undergraduate science students of final year on 07-09-2022. The students were given detailed presentation on various avenues available for chemistry graduates. The students were told about the different institutes for higher studies and the requirement of the institute regarding qualifications and rough idea of fee structure. They were made aware about the need of the hour regarding the fields in clean and green chemistry. The various avenues discussed are as follows:

Research Scientist: A research scientist is responsible for conducting research, analyzing data, and developing new products and technologies. They work in a variety of settings, including academia, government agencies, and private companies.

Analytical Chemist: Analytical chemists are responsible for analyzing and interpreting data to solve complex problems in various fields, including pharmaceuticals, environmental science, and materials science.

Chemical Engineer: Chemical engineers design and develop new chemical processes, equipment, and materials for a range of industries, including pharmaceuticals, energy, and consumer goods.

Quality Control Specialist: Quality control specialists are responsible for ensuring that products meet the required standards for safety, quality, and effectiveness. They work in various industries, including pharmaceuticals, food, and consumer goods.

Forensic Chemist: Forensic chemists work in crime labs and are responsible for analyzing physical evidence, including drugs, fibers, and fingerprints, to help solve crimes.

Science Writer: Science writers are responsible for communicating complex scientific concepts to a non-scientific audience. They work for science magazines, newspapers, and websites.

Science Teacher: Science teachers are responsible for educating students in various scientific disciplines, including chemistry. They work in schools, colleges, and universities.

Pharmaceutical Sales Representative: Pharmaceutical sales representatives are responsible for promoting and selling pharmaceutical products to healthcare professionals.

DEPARTMENT OF CHEMISTRY

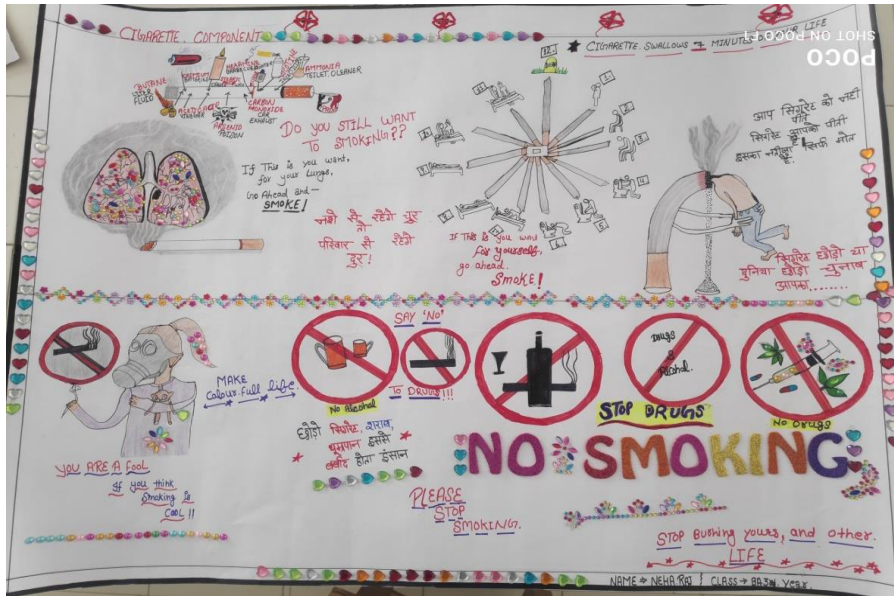

G.C. THEOG

WEEK LONG POWER POINT PRESENTATIONS FOR FINAL YEAR STUDENTS

The students of final year gave power point presentations for the topic allotted to them from their syllabus so as to make them more technology friendly and tech savvy. A total of 15 presentations were given at least 3 in one day. The students gave quite good and vibrant presentation on the topics of organic chemistry regarding structure and properties of heterocyclic compounds. They made considerable efforts for their best ppts.

UNDER The NMBA GOVT. COLLEGE THEOG organized essay writing competition and painting competition on 15-11-2022 and 17-11-2022 in which about 21 students participated in essay writing and nine students in painting competition.

NATIONAL SCIENCE DAY CELEBRATIONS 2023

The Department of Chemistry organized Essay writing competition on 28-02-2023 on the Topic “Global Science For Global Wellbeing “the theme for National Science DAY 2023. Twenty two (22) students from Science stream participated in the competition . The students were given the topics for the essay writing keeping in mind the theme for the year 2023.
