**“Induction Program”** (Session 2023-24)

**Dated:** 20 November 2023

The ‘Induction Program’ of the *Road Safety Club* for session 2023-24 was held in Room No. 4 on 20 November 2023. The main aim of the session was to familiarize the new students of the college and the students of second and third year as well about the genesis and significance of the *Road Safety Club*. Another important objective was to encourage their enrolment in the club and increase their participation in its activities. They were informed that it was Dr Rajseekaran, former Head of the Indian Orthopedics’ Association, who filed a writ petition in the Honourable Supreme Court of India requesting it to take cognizance of the large number of road accidents happening in India and the repetition of a similar pattern of carelessness and apathy. The Honourable Supreme Court of India took notice of the contents of the petition and directed all the State governments and the Government of India to constitute Road Safety cells and monitoring committees in every educational institution of the country.

The students in the ‘Induction Program’ were informed that five departments of the government in Himachal Pradesh are working in unison to reduce the number of mishaps and fatalities on Indian roads. They are the Transport department, PWD department, the Police Department, the Health department, and the Education department. The Education department has been included in this project as the youngsters constitute the major proportion of India’s population. The data from government websites was quoted in the talk and it was shared that maximum number of accidents occur amongst the 25–35-year age group followed by 18–24-year age group. The meeting was well attended, and the students were informed that in the forthcoming sessions, they shall be sensitized on the following important concerns:

1. Road Safety Rules & their relevance
2. Road Markings & Signages; Types of Roads & Traffic Signals
3. Pedestrian Safety
4. Important Documents such as Driving Licenses, Registration Certificate, Insurance, Pollution Certificate, Digi Locker, m-Parivahan app.
5. Importance of proper & periodic maintenance of vehicles.
6. Procedure for obtaining a Driving License.
7. Various Traffic Violations, Accidents & Fine (under Motor Vehicle Act)
8. Basic First Aid
9. Importance of Golden Hour, Trauma Care, CPR & Good Samaritan.
10. FIR and its importance.

Towards the end of the session, students who volunteered to enroll themselves in the club were registered. Thereafter, an executive committee was formed.

Govt. College Theog  
Road Safety Club (Session 2023-24)

**“Sensitization/Awareness Session by External Resource Persons”**

**Dated:** 09 December 2023

The *Road Safety Club* organized a sensitization and awareness program for the students with the overarching theme of ‘safe road behaviour.’ A recent trend has been observed that road mishaps and fatalities are a direct result of substance abuse, alcoholism, and digital distraction in many cases. Therefore, the club decided to invite external resource persons who are experts and learned in their respective fields and subjects. The *Road Safety Club* decided to include the *Department of Music*, the *Anti-Drugs & Cyber Crime Cell* of the college and the *NSS* unit of the college in the fight against unsafe road behaviour. The program started at 11 am. The Chief Guest, Dr Lalita Chandan, Principal, and the other guests were welcomed in Room No. 9 with a ceremonial tilak. The welcome address was delivered by the Convener of the *Road Safety Club*, Dr Aditya Singh Dulta. After pinning the rosettes to all the dignitaries and the staff, Mother Saraswati, the Goddess of Learning, Knowledge, and Wisdom was invoked through the ceremonial lighting of the lamp. It was accompanied by the rendition of the Saraswati Vandana by the students of the Department of Music. Thereafter, Dr Aditya Singh Dulta shared the keynote address with the audience.

**Declamation Round:** Four students were shortlisted for declamation during the sensitization and awareness session. Each of them was given different themes encompassing subjects like safety on the road, drug abuse, digital distractions, and cyber-crime. Mamta, a student of BA II, delivered her talk on “Drug Addiction.” In her well received talk, she talked about the increasing tendency among the youth of today towards substance abuse and its harmful effects not only on the body of the consumer but on his driving and the safety of other vehicles and other pedestrians. The second presentation was by Rohit, a student of B.Sc. III, and he spoke on “Digital Distraction & Cyber Crime”. He spoke very brilliantly and correlated all the themes very well. The third presentation was by Aman Sharma, a student of B.Com. III and he spoke on “Golden Hour”. His talk was very informative and resourceful to many of the students who were unaware that if a victim of a road accident is taken to the nearby hospital in the first hour of the accident itself, that is the golden hour, his/her chances of survival increase by almost up to 85%. The fourth presentation was by Anjali Kashyap, a student of BA III and she spoke on “FIR and its importance.” This talk too was very well researched and informative.

**Cultural Activities to increase Awareness:** The students of the *Department of Music* presented an “original song” with all the musical instruments which was composed by Dr Mohinder Rathour, Assistant Professor of Music. The song was entitled “*Nasha Hai Bura Yaaron,*” and exhorted the youth to stay away from drugs as it not only annihilates the consumer of such substances but destroys the peace, prosperity, and health of the entire family. Thereafter, a

“mime” was presented on the theme “Digital Distractions & Cyber Crime.” In the series of cultural events, a “skit” was also presented on “Drug Abuse” which received a thunderous approval and a huge round of applause from the audience. Thereafter, the two keynote addresses were delivered by Resource Persons from their respective fields:

**Resource Person 1: Dr Baburam, Department of General Surgery, IGMC, Shimla.**

The first keynote speaker of the program was Dr Baburam from the Department of General Surgery, IGMC Shimla. From his job experience as a surgeon, he recounted several instances when a victim of road mishap was either paralyzed or brought dead a s/he was not rescued properly as per protocol. Dr Baburam delved in detail about the anatomy of the human body and how a victim needs to be rescued from any site of mishap. He said that the major volume of blood in the human body resides in the lower part of the body and any major loss of blood there could lead to immediate casualty. He informed the gathering about the concept of ‘golden hour’ and how timely relocation of the victim could be instrumental in saving his life. He talked about many aspects of human biology and how careful handling of the victim, both physical and psychological, could prove to be of great significance. Towards the end, he shared videos of Cardiopulmonary resuscitation (CPR).

**Resource Person 2: Shri Kulbir Singh, SHO, Police Station, Theog**

The second keynote speaker of the program was Shri Kulbir Singh, who is also the Station House Officer (SHO) of the local Police Station at Theog. He was accompanied by Shri Rakesh Kumar, ASI, Police Station Theog. In his address, Shri Kulbir Singh, from his lived experiences, recounted the numerous cases he has witnessed as a Police Officer when very serious accidents have been met due to man-made mistakes such as drunken-driving and driving after consumer alcohol. He cautioned the youth against this practise as it not only injures one physically but also places one at the wrong side of law. He informed the students that high-powered CCTV cameras have been installed by the government at several important junctions and the activities of the motorists are under scanner. He informed the gathering about the latest changes in law which support ‘good Samaritan’ and the person can leave the hospital premises without any questions being asked after leaving the injured at the hospital. He delved on many aspects of road safety.

In her presidential address, the Chief Guest, Dr Lalita Chandan, Principal & Head of the institution, very generously appreciated the efforts undertaken by the students and the staff in making the awareness/sensitization program a grand success.
