

The Department of Geography at Government College Theog organized a field survey from **30th October 2025 to 5th November 2025** under the esteemed guidance of **Dr. Rajesh Kumar**. The primary objective of the survey was to conduct a comprehensive analysis of **Drinking Water Facilities** within the jurisdiction of the **Municipal Council Theog**.

Key Details:

- **Date of Visit:** 30-10-2025 to 05-11-2025
- **Topic:** Drinking Water Facilities in Municipal Council Theog
- **Participants:** Students from the Third Year

Summary:

During the survey, third-year students actively engaged in collecting data related to the availability, accessibility, and quality of drinking water across different wards of the municipal area. Students employed various geographic survey methods such as direct interviews, observation, questionnaires, and mapping to ensure a detailed and accurate representation of the water facility scenario. The findings from the survey are expected to contribute significantly towards understanding the current status of drinking water services and recommending potential improvements.

This field activity not only enhanced the students' practical understanding of geographic research methods but also promoted civic awareness regarding local water management issues.
