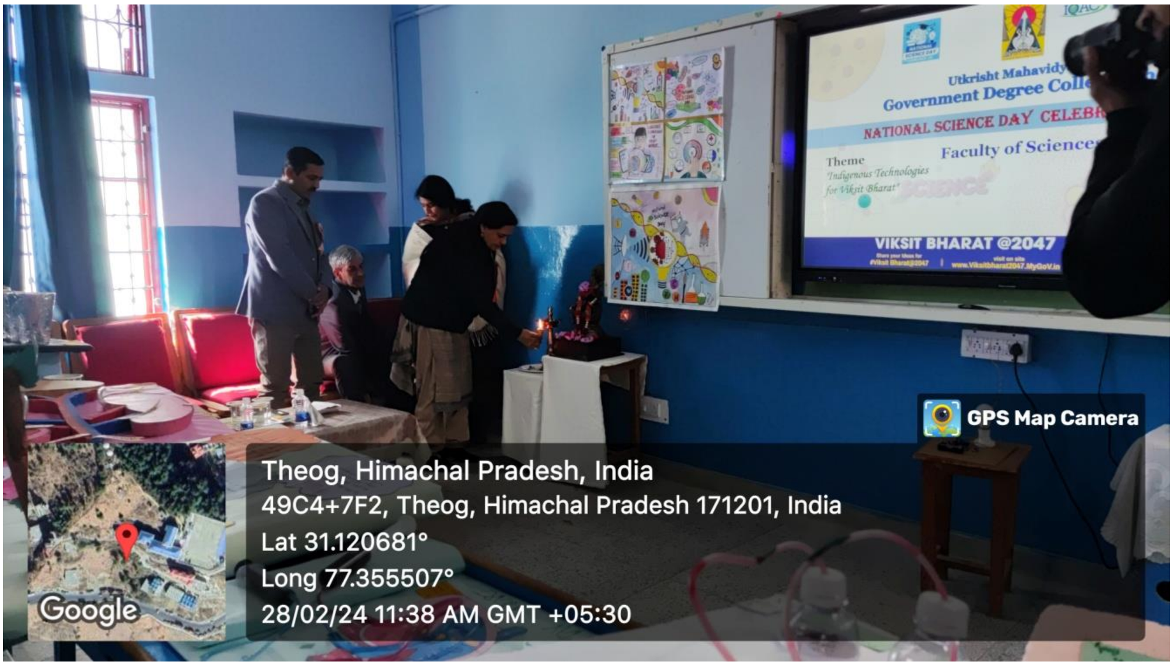
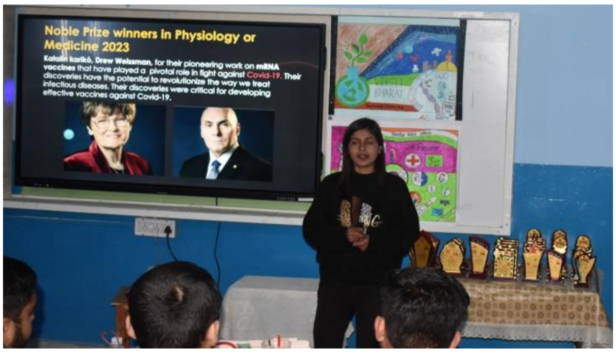
National Science Day Date: 28. 02.2024

Science faculty (Botany, Zoology Physics, Chemistry, Computer Science, and Maths) of Govt. Degree College Theog has observed National Science Day -2024 in the college campus on 28 February, 2024. The National Science Day is celebrated to commemorate the discovery of Raman Effect, a phenomenon in spectroscopy, by one of the Renowned Physicist of India Sir C.V. Raman. It aimed to propagate the importance of science and its application among people also to generate scientific temper in the society and encourage the students to take up science as their future. This year, the theme was "Indigenous Technologies for Viksit Bharat". On this occasion various activities namely Poster Making Competition, Model Making Competition, Slogan Writing Competition, Power Point Presentation, Group song and Skit to spread Science awareness were organized. Principal Dr. Lalita Chandan presided over the session. She appreciated the students for their wonderful and enlightening work they done. She also emphasized on the importance of indigenous technology to make the India as developed nation (Viksit Bharat). After that prize has been distributed among the winners of various competitions. The programme ended with the National Anthem.



VIKSIT BHARAT @2047

NATIONAL SCIENCE DAY - 2024



Noble Prize winners in Physiology or Medicine 2023
Katalin karikò, Drew Weissman, for their pioneering work on mRNA vaccines that have played a pivotal role in fight against Covid-19. Their discoveries have the potential to revolutionize the way we treat infectious diseases. Their discoveries were critical for developing effective vaccines against Covid-19.

ALTERNATIVE FUEL
Alternative fuels are derived from sources other than petroleum. Most are produced domestically, reducing our dependence on imported oil, and some are derived from renewable sources. Often, they produce less pollution than gasoline or diesel.
