

## **Report on Career Counselling October, 2020**

In October 2020, the Career Counselling and Placement Cell of Govt. College Theog organized a virtual career counselling session for students. Nimbus Academy Chandigarh was invited to address the students regarding career opportunities in Science, Humanities, and Commerce. Representatives from Nimbus Academy discussed various career paths in science, including research, healthcare, and engineering. They provided insights into careers in education, social work, public administration, civil services, and government jobs. Career options in commerce, including finance, accounting, marketing, and business management, were also explored. The significance of professional certifications like CA and MBA for advancing in commerce-related careers was highlighted. Members of Nimbus Academy motivated students to consider careers in civil services and bureaucracy, offering guidance on preparation and requirements for civil services, competitive exams, and entrance tests for higher education. Students actively participated in the Q&A session, seeking advice tailored to their individual career interests. Nimbus Academy experts provided personalized guidance on career planning and job market trends. The career counselling session was highly beneficial for students, offering comprehensive insights into career opportunities across Science, Humanities, and Commerce. The collaboration with Nimbus Academy Chandigarh equipped students with the knowledge and tools needed to make informed career choices.
