Report on Educational Visit to the Department of Chemistry, Himachal Pradesh University, Shimla.

Date of visit: 12 October 2026
Venue: Department of Chemistry, Himachal Pradesh University, Shimla
Participants: B.Sc. Chemistry students, Government Degree College Theog
Accompanying faculty member: Ms. Anamika Ramchaik

Introduction

The Department of Chemistry, Government Degree College Theog, organised a one-day educational visit to the Department of Chemistry, Himachal Pradesh University (HPU), Summer Hill, Shimla, on 12 October 2026. Assistant Professor Anamika Ramchaik accompanied the B.Sc. Chemistry students. The visit was arranged to broaden students' understanding of chemistry beyond the classroom and to introduce them to the facilities, research environment and academic activities of a university department. On arrival, the students were welcomed by members of the Department of Chemistry, HPU.

Laboratory and Research Exposure

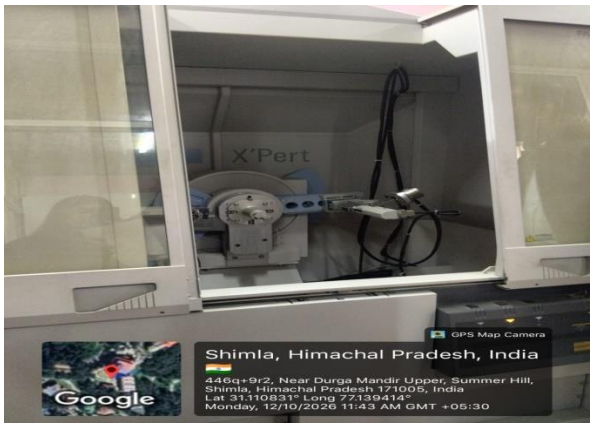

During the visit, students were familiarised with the department's advanced laboratory facilities and the use of laboratory equipment in teaching and research. They were also introduced to the ongoing research activities in the department. The visit offered students a valuable opportunity to observe how concepts studied in their undergraduate courses are applied in practical investigations and scientific research.

Interaction with the Faculty

A particularly engaging part of the programme was the interaction with Dr. Kiran Kumar, Chairman of the Department of Chemistry, HPU. He spoke with the students about the department's academic and research environment and encouraged them to pursue their studies with curiosity, commitment and a scientific outlook. Students also interacted with Dr. Nisha, Associate Professor in the Department of Chemistry, HPU. She motivated them to develop a strong foundation in chemistry, make effective use of laboratory learning and consider the opportunities available for further study and research in the subject. Her interaction encouraged students to think about their academic goals and future prospects in chemistry.

Outcomes of the Visit

The visit was informative and inspiring. It helped students gain first-hand exposure to university-level laboratory facilities and ongoing research, while also giving them the chance to engage with faculty members and learn from their academic experience. The programme strengthened their interest in chemistry and provided a clearer understanding of the possibilities available for higher education and research.
