**Report on Collaboration of NSS Unit, Government College Theog with PRATHAM Foundation for “CAMAL KA CAMP”**

The NSS Unit of Government College Theog collaborated with the PRATHAM Foundation to implement the initiative titled “CAMAL KA CAMP.” The primary objective of the programme was to reach out to children in nearby communities and strengthen their foundational learning in mathematics and language.

Under this initiative, seven dedicated NSS volunteers from Government College Theog actively participated and undertook the responsibility of teaching children in their respective villages. The volunteers conducted engaging learning sessions focusing on basic numeracy, reading, and language skills, using activity-based and learner-friendly methods as guided by the PRATHAM Foundation.

The programme not only benefited school-going children by improving their foundational competencies but also provided valuable teaching and community engagement experience to the participating NSS volunteers. The collaboration reflects the college’s commitment to community service, educational outreach, and holistic student development.

Overall, the “CAMAL KA CAMP” initiative proved to be a meaningful step towards bridging learning gaps at the grassroots level while nurturing a spirit of social responsibility among NSS volunteers.
