

Report on Clean Campus Initiative

The NSS Unit of the college undertook a **Clean Campus Initiative** on **16 September 2025** immediately after the conclusion of the college function. The activity reflected the commitment of NSS volunteers towards maintaining cleanliness and promoting responsible behaviour on campus.

A team of **five dedicated NSS volunteers** actively participated in the cleanliness drive. They carefully collected and disposed of the trash left behind after the function, ensuring that the college premises were restored to a neat and hygienic condition. The volunteers worked with enthusiasm and a strong sense of social responsibility.

The initiative not only helped in maintaining the cleanliness of the campus but also conveyed an important message about environmental awareness and civic duty. Such efforts reinforce the spirit of NSS in building disciplined and socially conscious citizens.

The NSS Unit appreciated the sincere efforts of the volunteers and encouraged all students to contribute towards keeping the campus clean and green.
